Do 	Don't 
Talk to your teachers and family about your options.	Choose a subject just because you like a particular teacher.
Opt for a balanced choice to keep future options open.	Choose a subject just because your friends are choosing it.
Choose subjects you are interested in.	Dismiss subjects because you have not heard of them before or they are not GCSE.
Think about what you want to do after year 11.	Think university or higher apprenticeships are not for you - have high aspirations.
Be realistic about your skills/ability and listen to advice.	Miss the deadline!
