Climate change Population Sustainability Skills for the future (fieldwork & map/graph skills)	Topic 1	Weather: - How climate change impacts weather - How these changes in weather impact population - On-site fieldwork	Population change: - Population issues worldwide - How population issues impact climate - Sustainability of population growth & policies	Development & Globalisation: - Population differences between countries - Sustainability of globalisation	Topic 1	Living World:	The Challenge of Natural Hazards:	Coastal Landscapes		Natural Hazards	
	Hot Topic			Nuclear Energy: - Population link - HICs developing Nuclear, LICs are not, increasing development gap - Impact of Nuclear on climate - Sustainability of nuclear	Topic 2	Urban Issues & Challenges:	Changing Economic World				
	Topic 2	Rivers/flood risk: - How climate change impacts on weather affect flood risk - Sustainable strategies to manage	Living World: - Deforestation impact on climate change, population (resources) and sustainability - Desertification - causes being climate change and population	Hazards: - Climate change impact on hazard frequency/intensity - Differing impacts on Population depending whether HIC/LIC - Sustainable management - GIS Skills	Topic 3	UK Physical Landscapes:					
	Hot Topic		Antarctica: - Population & climate impacts - Global governance/treaties (sustainability) - Whaling (sustainability)		Topic 4	Resources					
	Topic 3	Resources: - How resources are impacted by climate and population - Sustainable strategies for future	Coasts: - Population at the coasts - Climate change impact on coasts (flooding/erosion/sea level rise) - Sustainability of our coasts - Virtual fieldwork	Contrasts in Africa: - Population differences - Climate differences - Migration due to population & climate pressures - sustainability of this	Fieldwork	Physical Geography - Theddlethorpe	Human Geography - West Bridgford	Physical Geography - Holderness Coast	Human Geography - Lincoln		
	Hot Topic	Air pollution: - Impact of over population - Sustainability of management	Plastic Pollution: - Population causing plastic pollution - Sustainability	Space GIS
